# HYDRAULIC HAND PUMP

## ATM-1000 H

The High Pressure Hand Pump is a robust and reliable calibration pump designed for generating hydraulic pressure up to 1000 kg/cm<sup>2</sup>. Ideal for testing and calibrating pressure gauges and transmitters in both laboratory and field applications, ensuring accurate and dependable performance.

### KEY FEATURES

- Pressure range up to 1000 kg/cm<sup>2</sup>
- Rugged SS 304 construction
- High-Stability pressure generation
- Suitable for water and oil media
- Supplied with flexible hose & fittings
- Compact, lightweight and portable
- Easy manual operation with smooth pressure control

| SPECIFICATIONS       |                                |
|----------------------|--------------------------------|
| PARAMETER            | DETAILS                        |
| Model                | ATM-1000 H                     |
| Product Type         | High Pressure Hand Pump        |
| Pressure Range       | 0 to 1000 Bar                  |
| Pressure Medium      | Water / Oil                    |
| Operation            | Manual Hand Operated           |
| Application          | Calibration of Pressure Gauges |
| Suitable For         | Laboratory & Field Use         |
| Flexible Hose/Direct | Up to 400/1000 Bar             |
| Approx. Weight       | 2.5 kg                         |
| Optional Accessory   | Table Top Attachment           |
